It would appear that the particular allegation made by the unnamed London newspaper, suggested that the Prime Minister and certain of his colleagues were favourable to Mr. Lloyd George's proposals, and that Mr. Snowden. These chilly mornings and evenings - followed, very likely, by warm days - may result in coughs and colds unless you safeguard yourself against these treacherous variations in temperature.

The sure safeguard is delicious "Ovaltine" as your daily beverage. This perfect concentration of the nourishment extracted from malt. milk and eggs nourishes the whole system and creates reserves of strength and vigour to resist colds and epidemic infections. It enables you to fortify yourself against the depressing humidity of summerwhich will come, alas, all too soon.

"Ovaltine" is complete in all the essential food elements and vitam-; ins. Not ing could be added which would make it more perfect and complete.

The old family album will be brought to life in "The Florodora." Among the quaint scenes of the '90's which were reproduced are a section of the Bowery including a street exterior with the elevated runbling overhead, quack medicine barkers, ladies of light loves, election torch parades and a general hurdygurdy jumble of humanity. Then there are a sawdust and gaslamp bar room with its "Family Entrance" and Newbigging and Gordon's Grey sitting room with singing waiters und brass-knuckled bouncers to say nothing of the curtained private booths where chloral "knock-out drops" won notorious fame. Two lielen Kanes will be seen and heard in a forthcoming Paramount film production—one of them wholly different from the little girl who babytalked her way into national fame as a Broadway, radio phonograph and talking picture entertainer. The other will be her true self.

In "Pointed Heels," the new 'production, which comes to the Central theatre to-day, Miss Kane and Richard "Skeets" Gallagher play "Dot" and "Dash" Nixon, a song and dance team who aspire to Broadway prominence. After they have won fame they turn "high hat." It is during this period Own's Little Thunder 155 lbs ... that Miss Kane goes operatic and sings a song in the best Boston manner. #### FUTURE OF CHINA'S INDUSTRIES.

#### PROTECTIVE TARIFF PROPOSED.

RATIONALISATION ON A LARGE SCALE.

#### CONFERENCE SCHEME.

The imposition of a protective tariff to aid Chinese industries was one of the most interesting recommendations of the National Industrial and Commercial Conference, which concluded at Nanking on Saturday.

The proposal called for full cooperation between various industrial and commercial enterprises and pointed out that the three most effective means of promoting home industries are: (1) enforcement of a protective tariff, (2) in troduction of methods of scientific management and (3) large scale production and distribution. By the amalgamation of various companies engaged in the same kind of business, not only can a great amount of management expenses be saved by doing away with trade rivalry and competition, but experts as well as means of production may be concentrated and a concerted effort against foreign competition made possible.

#### Rationalisation.

The proposal which was adopted, provides for the following mea-

'A. With Regard to Production 1.—Amalgamation of various factories having small capital. 2.-Co-operation in the purchase of raw materials and machinery for factories situate at different

3.—Amalgamation of new factories with old ones.

B. With Regard to Distribution and Marketing:

1.—Standardization of products 2.—Co-operation in the transportation and storage of goods. 3.-Standardization of trade marks and uniformity of prices. A proposal calling for the prohibition of the export of iron ores and waste iron was adopted.

#### Animated Discussion.

Animated discussion of a proposal providing for the prohibition of foreign industrial and commercial enterprises in China took place during the Conference. The view was expressed by some detrimental to home industries, the proper remedy was to be found rather in restriction and regulation by appropriate legislation than in drastic suppression. was also pointed out that until the various unilateral treaties, by which China was still bound, have been abrogated, no restrictive measures could be effectively enforced.

It was also contended that the operation of foreign factories was beneficial to China in that efficient native workers might thereby be trained and, therefore, this was no time to talk about the suppression of foreign enterprises.

#### 58 Proposals in all.

In addition to the proposals! mentioned above, 58 other proposals relative to industrial and commercial policies and industrial and commercial legislation, which had been referred to the 1st Proposals Examination Committee for examination, were remitted to the Ministry of Industry, Commerce and Labour to be dealt with in accordance with the recommendations of the Committee. The more important among thes proposals relate to:

1.—Encouragement of foreign investment in the opening of factories for the manufacture of machinery.

2.—Early enactment and pro mulgation of laws for the protection of industry and commerce. 3.—Imposition of taxation against "dumping."

4.—Standardization of commercial, and industrial products. guards for foreign investments. was shown for the first time at the

Cicala scored a victory by two goals to This result, however, was reversed in the return match when the Shameen Sports Club defeated the naval team by three goals to

In yesterday's match a very strong improvement was noticeable in the Shameen forward line which proved quite a formidable combination. About half-way through the first half the Cicala right half, H. CLUB SURPRISED BY ST. JOSEPH'S.

RECREIO AND SOUTH CHINA ALONE UNDEFEATED.

KOWLOON'S USUAL.

[By "Wanderer."]

The Argylls have come back into form with a flourish. They obtained six goals for the second week in succession on Saturday, the Navy being swamped after holding their own until the interval. South China, however, are hanging on to their leadership, scoring their sixth successive win at the expense of Kowloon.

The Club were concerned in two surprises. In the Senior Division they went down unexpectedly to St. Joseph's, while the second eleven scored a remarkable victory over the Navy Reserves.

A somewhat similar state of affairs prevailed at the other end. Li Ting-sang and Leung Wing-chiu blotted out a very weak Kowloon right wing, while Ianson and Hedley on the opposite side found progress against Tong Kwan and Tam Kong-pak difficult. Tam played one of his best games, though there was ground, for suspicion about the manner in which he brought lanson to earth time after time. Gillott worked hard in the middle, was not adequately supported and failed to

In the circumstances, it, was not surprising that though the game was keen and fast throughout, the standard of football achieved was not very high. The defenders on both sides were responsible for many really clever things, but don't think there was a single concorted forward movement throughout the game. South-China's forwards made numerous dashing raids by long swinging passes to the wingers and first-time booting of the ball, but the line failed to develop real combination, thanks to the fine tackling of Dowman, Mc-Kelvie and Bliss. Dowman was particularly outstanding in defence, but his constructive efforts fell a long way behind, his other work. McKelvie checked Fung Kingcheong efficiently and he alone made proper efforts to get his forwards

South China opened the scoring with a fluke shot ten minutes from the start, Ip Pak-wa, essaying a drive, miskicking and having the good fortune to see the ball trickle off his heel into the corner opposite to that at which he aimed. The Police were well served by Shepherd, although he was opposed to the liveliest Recreio wing, and Perkins and Oram did much good work. The forwards promised well, but they failed to use their opportunities. Both goals were the result more of luck than of judgment.

To-night the gleaming tresses which defied time were drawn back into a low knot. Her shbul ders and arms were creamy white. There were chin lines and tiny criss-cross wrinkles about her blue eyes which worried Mrs. Parsons, but the electric glow concealed them.

TWO SOLDIERS TROUBLE.

CAFE INCIDENT LEADS TO COURT CHARGES.

CASE ADJOURNED.

Pte. Finneram and Pte. Gallagproperty at the On Lok Yuen Cafe was 76 years of age. saulting Fung Tong, a waiter. Both accused pleaded not guilty

to all charges. Giving evidence, Fung Tong said the soldiers consumed two cups of ice cream for which a bill for twenty cents was presented. They got up, and Gallagher, to whom the bill was tendered, pointed to his companion, who took no notice. Both men then attempted to leave the place without paying, and it was while remonstrating with them that witness was struck by Finneram in the face and pushed against a table, against which he fell.

In the scrimmage, the glass of the table was broken, while a lamp shade and electric bulb were

also smashed. Questioned by the Magistrate, witness said what Fioneram did was to put his arms around his waist, lift him from his Teet and deposit him on the table. This was after witness had received a blow which felled him to the ground and from the effects o which he bled for ten minutes.

Finneram, in reply to the charges, said he was not presented with a bill, and, after waiting for a while, he left a dollar on the table before he and Gallagher got up. The waiter then came up and, without noticing the dollar, campaign of that year as Chief of pressed and harried Gallagher in Staff to Major-General Wilson, a provoking manner.
